

RETRACTABLE AWNING SYSTEMS

THE Ultimate Eclipse

RELAX AND ENJOY COOL COMFORTABLE SHADE

THE ULTIMATE SUNBLOCK®

THE Ultimate Eclipse

RETRACTABLE AWNING

The Ultimate in Function and Form

Are you ready to step up to the finest in retractable shading? The Ultimate lives up to its name with cutting edge technology, design and superior strength – unavailable anywhere else in the industry!

The Ultimate Eclipse has been tested for safety and wind resistance and has met the requirements for Class III – the industry's highest rating.

PRODUCT HIGHLIGHTS

- Widths from 5 to 40 feet
- Projections up to 13 feet
- Blocks up to 98% of the sun's harmful UV rays, while also providing significant cooling
- Choose from more than 200 solution dyed acrylic fabrics to best match your home or business
- Motorized or manual operation
- Available in 2 beautiful "Qualicoat" powder coated frame finishes
- All frame components meet stringent ISO 9001 and TUV standards
- The strongest awning available in the industry
- Features Eclipse Awning Systems' Advanced Belt Technology® (ABT)

The Ultimate Eclipse Has A Patented System That Is Built To Last

The patented design, double ball bearing elbow, completely conceals the Eclipse exclusive Advanced Belt Technology® that transfers the internal arm spring force. The system has been tested to over 60,000 cycles.

The secret of the Ultimate's arm tension is contained in the upper portion of the arm which features a patented in-line, dual force spring tension which results in constant arm tension throughout the entire awning's range of use – unlike any other system on the market today! The result – your awning fabric will remain taut in any position.

Eclipse Awning Systems is proud to carry the prestigious Skin Cancer Foundation Seal of Recommendation on its products using Sunbrella fabrics.

The Strongest Built, Longest Lasting Awning In The Industry

Superior Strength, Durability and Beauty

Built on the industry's largest 50 x 50mm torsion bar, the Ultimate is a true combination of beauty and functionality. We incorporate vacuum injected shoulders and end brackets with Teflon® coated stainless steel bushings and fasteners to extend the Ultimate's unique status among shading systems world wide.

Ultimate Eclipse Semi-Cassette Option

To conceal and protect the fabric from the elements, the Ultimate Eclipse is available in a Semi-Cassette format up to 22'0" wide. The cassette profiles are constructed of powder coated aluminum and blends harmoniously with the unit's stylized front bar.

SOFFIT MOUNT

ROOF MOUNT

Mount On Virtually Any Surface

The Ultimate Eclipse can be mounted on virtually any surface – under a soffit, on any flat surface or can be roof mounted when additional mounting height is required.

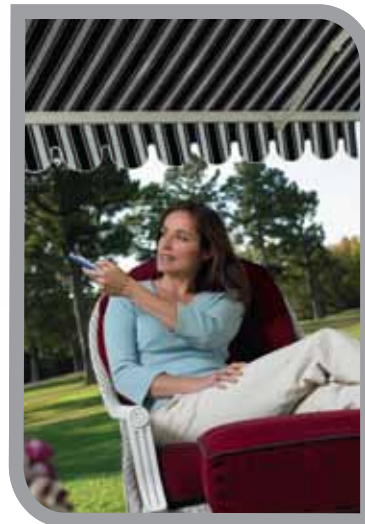

Lunar Lighting Package

Rope style lighting that provides a soft moonlight glow, perfect for evening entertaining at the touch of a button. These UL listed lights are safe for outdoor use and will not attract bugs.

Solar Beam Heater

Extend your outdoor living with our on-demand 1500 watt, short wave, infrared heater that mounts to the underside of the unit's torsion bar or directly on the wall. With the wall mounted control unit, you can dial in the amount of heat you desire.

Electronic Accessories

Working in conjunction with motorized units, our world-class wireless components will increase your unit's functionality and effectiveness.

Wind Sensor: This accelerometer sensor attaches to the front bar which will retract the unit if it gets too windy – adding a level of safety.

Sun Sensor: This sensor typically mounts to an exterior wall and will automatically extend the awning once the preset sun level is attained.
